

TASK 2A

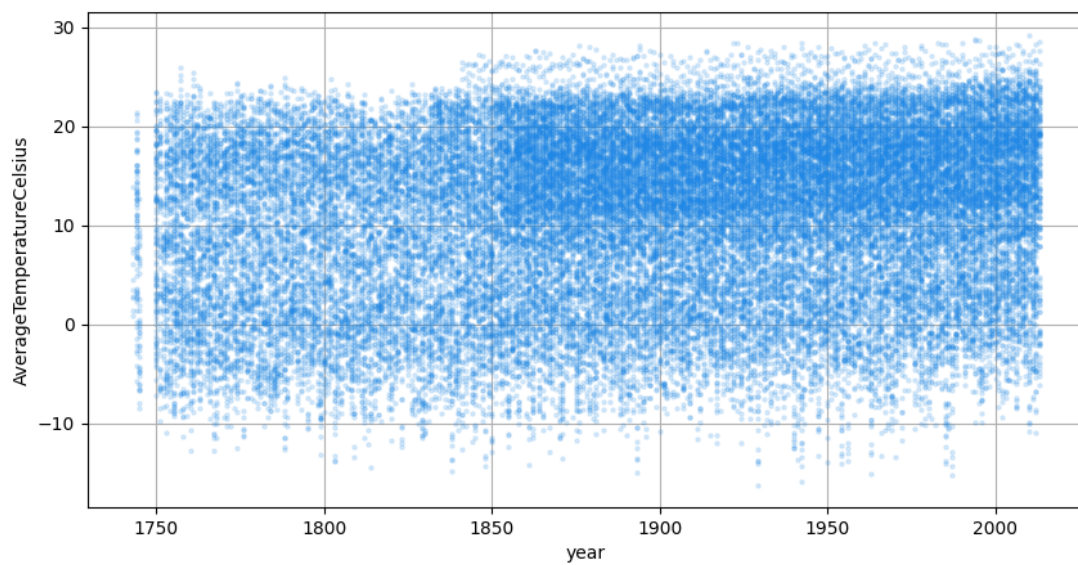

TASK 2B

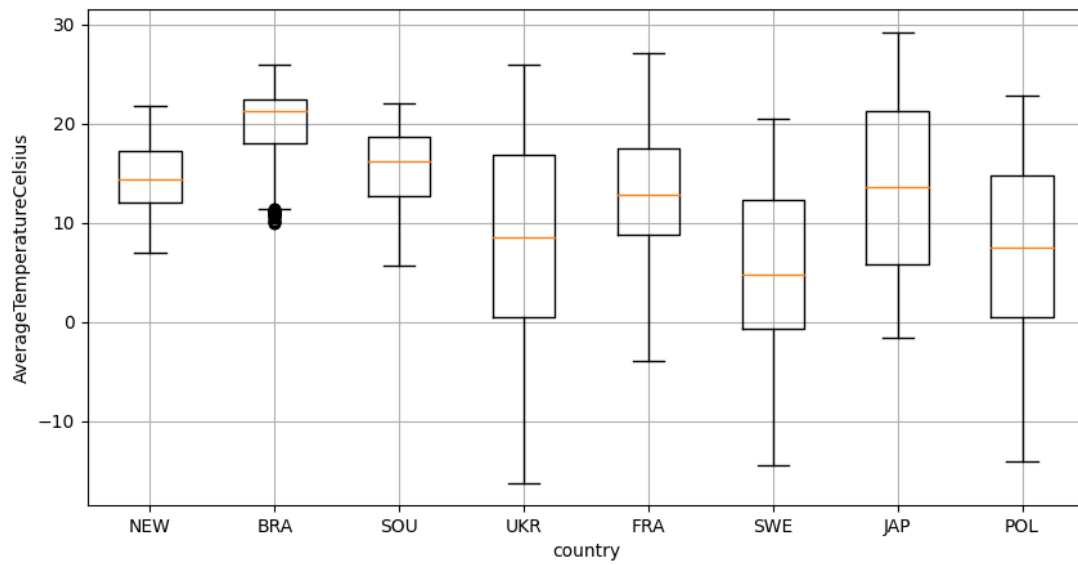

TASK 2C

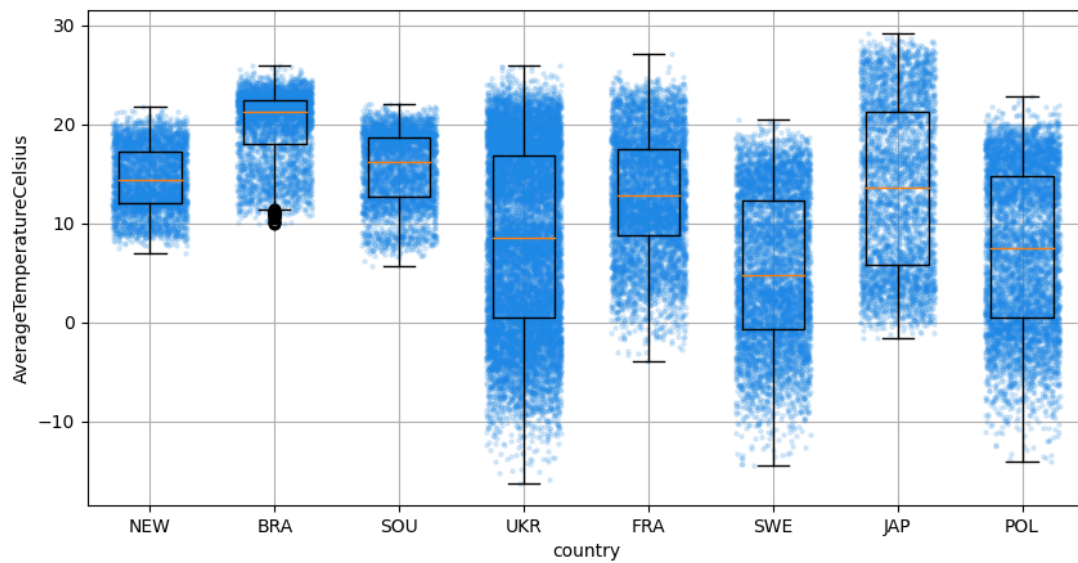

TASK 2D

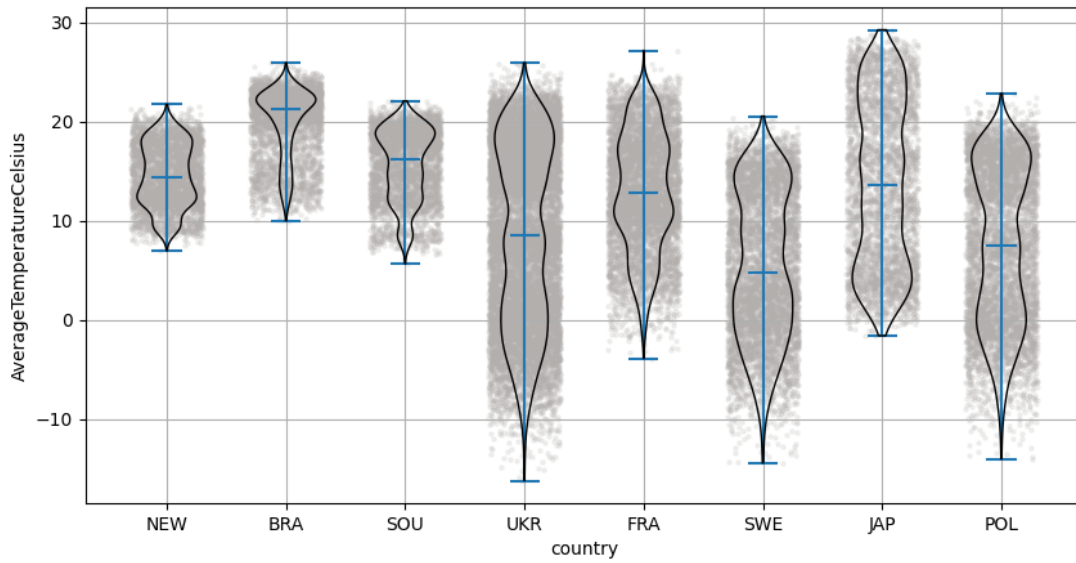

TASK 3A

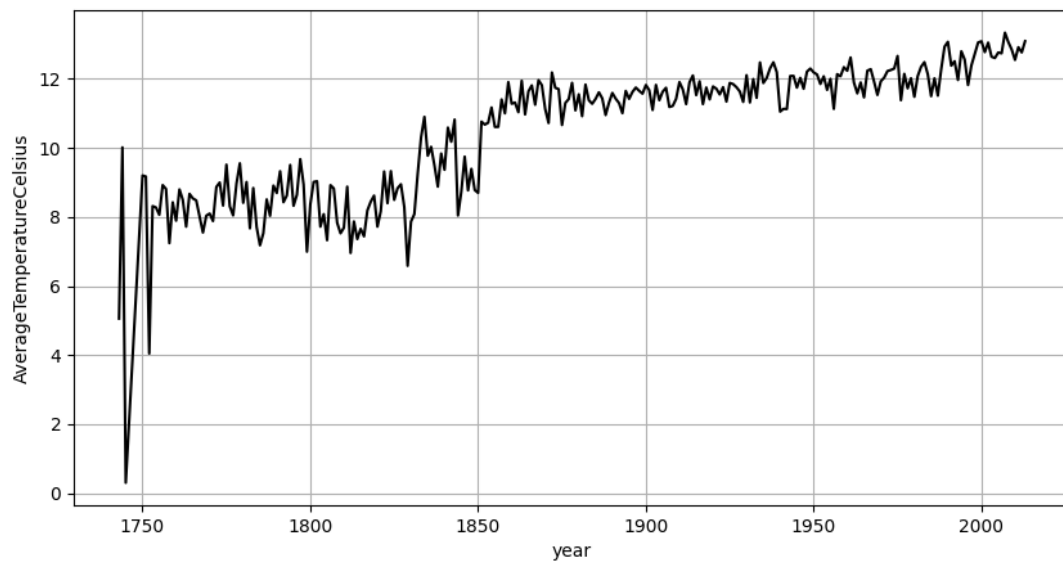

TASK 3B

TASK 3C

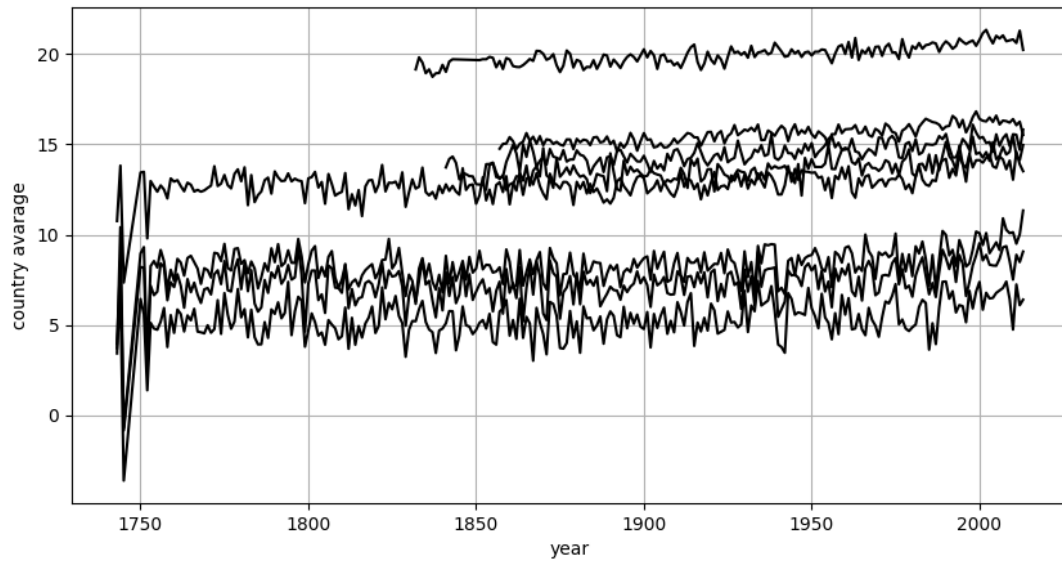

TASK 4A

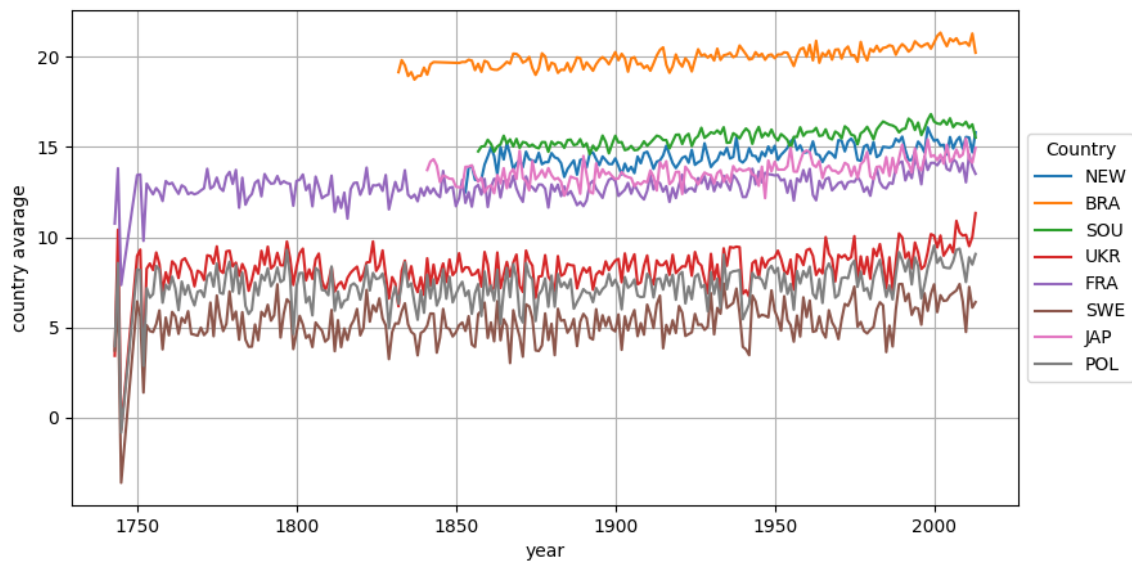

I did not understand this point. I plotted mean AverageTemperatureCelsius in each year, without splitting data by country, cause it is done in the next task.

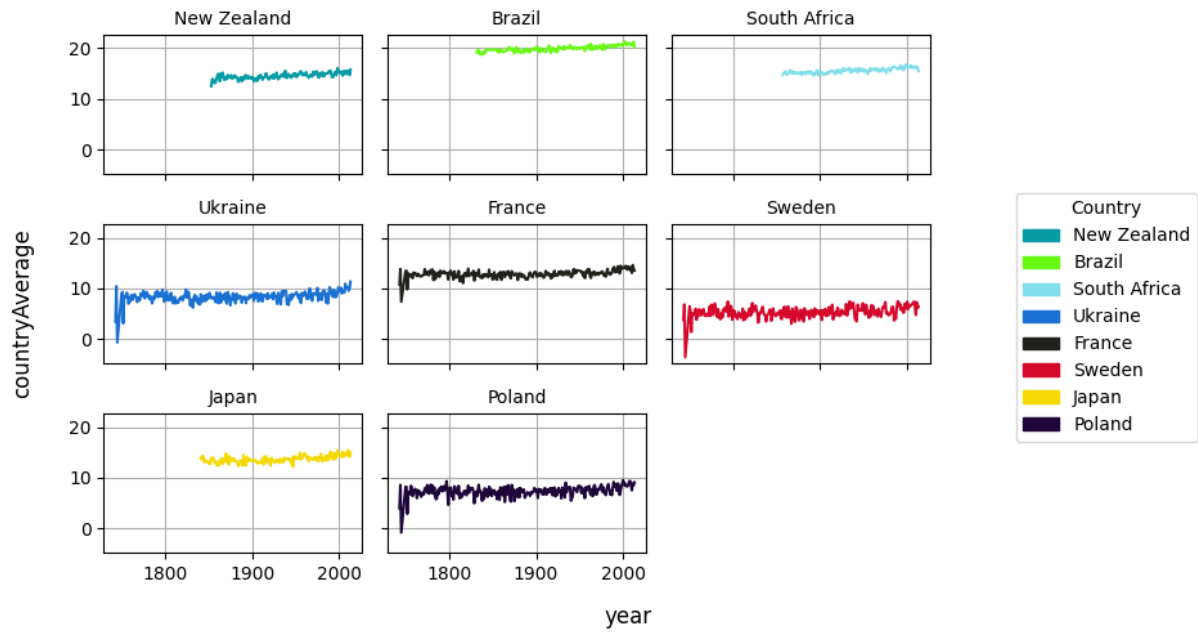

TASK 4B

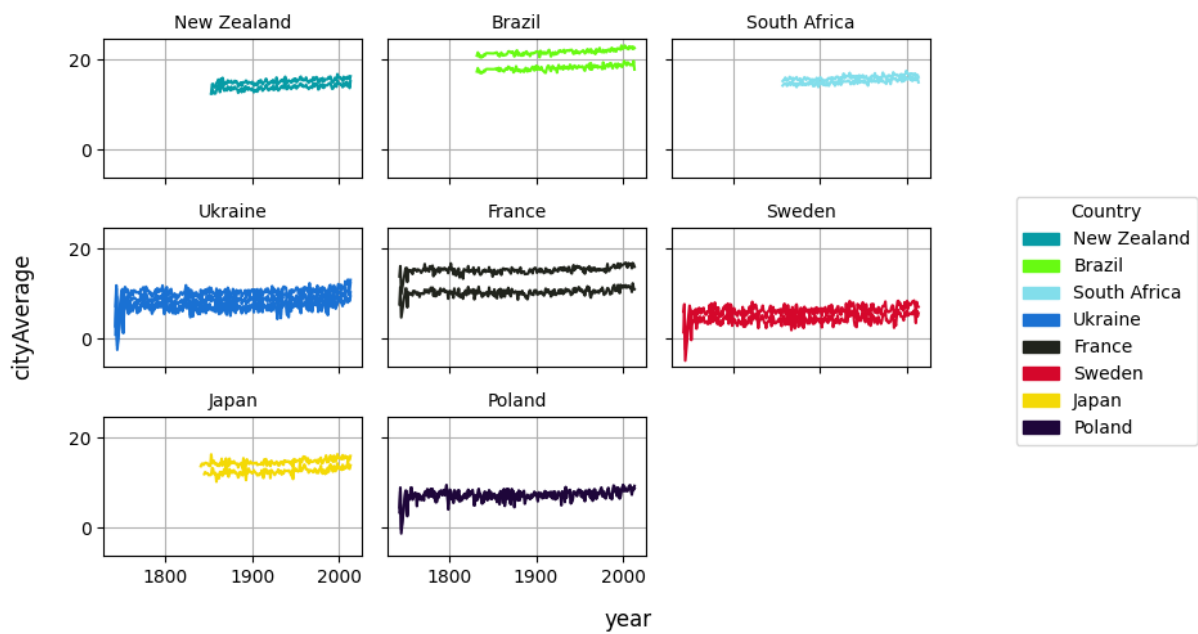

TASK 4C

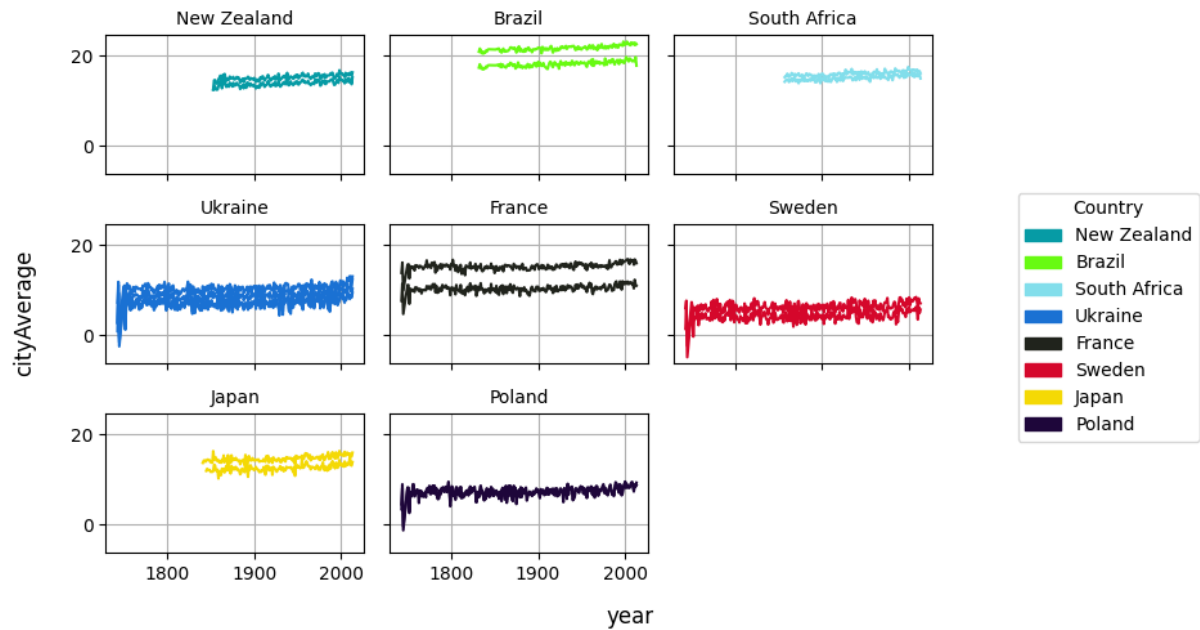

TASK 5A

TASK 5B

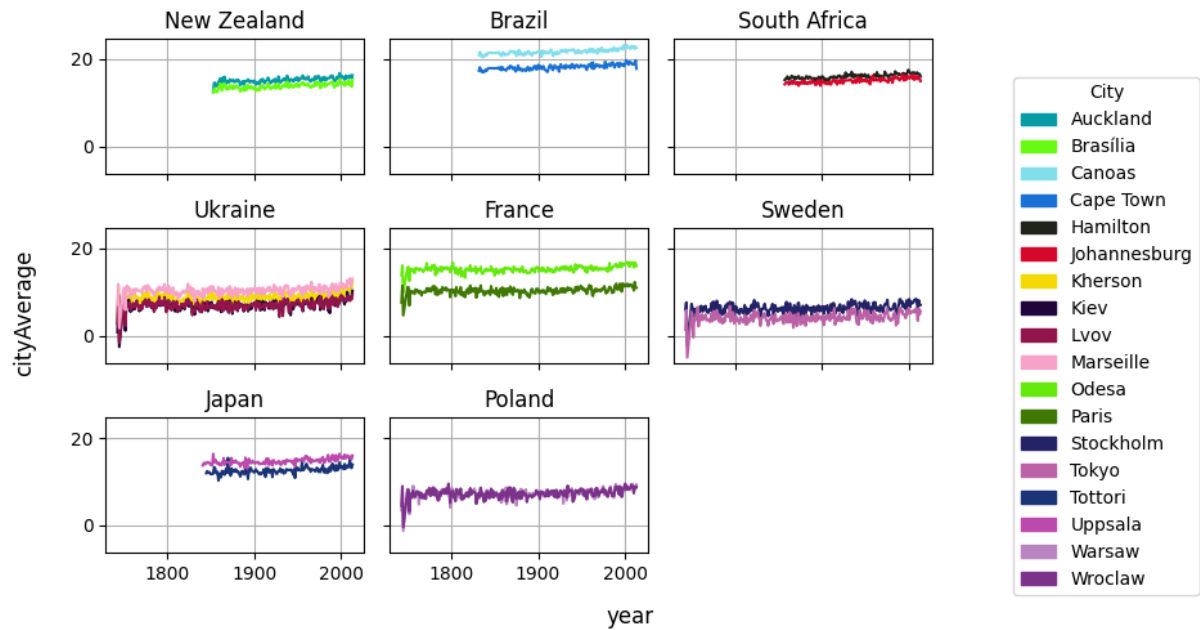

TASK 5C

It's exactly the same as 5b, cause I have been using reversed grid coloring since the beginning.

TASK 5D

TASK 5E

Average Temperature
